quirements on 13 September The coal
tuation continued to be critical particularly in view of peak
affic in fall.
<u>Comment.</u> Since 37,000 tons of hard coal represent 55,500 as in briquette units, total coal stocks available on 12
ptember emounted to 100,400 tons in briquette units.
the daily coal consumption
ota was 18,943 tons during the reported period. Compared to the
st reported period, the daily coal consumption quota decreased about 450 tone in briquette units. For the first time in a
olonged period, the hard coal proportion of the total coal
olonged period, the hard coal proportion of the total coal ocks was more than 50 percent.
